FREE YOUR DESIGNERS TO FOCUS ON THE CREATIVE PROCESS

As consumers demand ever faster and more innovative products, apparel and soft goods brands are challenged to evolve with the times. To remain relevant in these fast-paced and competitive markets, companies need to find better ways to grow revenue while reducing costs. With no time to waste on complex and cumbersome systems and an increasingly remote workforce, it's time to take a fresh look at PLM.
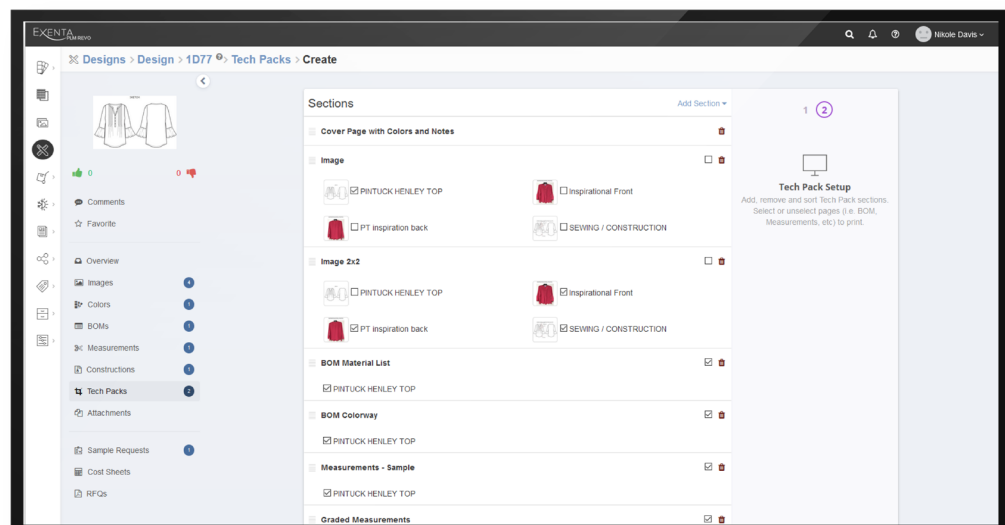

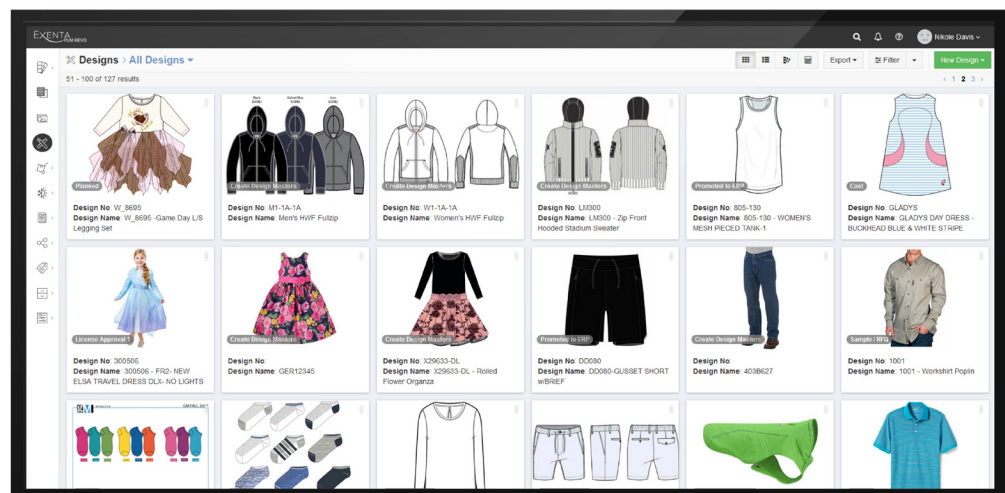

Easily accessed via the web/cloud and mobile solutions, PLM REVO streamlines essential processes including approvals, change management, line selection, vendor quotes and bids, and compliance. Real-time information and analytics keep everyone working on the same page and support better-informed and more timely business decisions. Flexible features adapt to your workflows and allow you to define the milestones and steps important to your process. Client-based labeling allows you to name things in a way that makes sense for your business. Most importantly, PLM REVO's easy-to-use interface means minimal training is required, and your team will be up to speed in a matter of weeks, enjoying the efficiencies the system delivers.

The **PLM REVO Design Plug-in for both Adobe Illustrator and 3D platform systems** enables designer to launch new concepts, contribute to and use information from PLM without ever leaving their design software. You can give your designers access to the latest palettes, colors, components and templates within the PLM system, simplifying the design of new items.

KEY ADVANTAGES OF EXENTA PLM REVO

- Grow revenue while reducing costs
- Accelerate design, development and sourcing
- Enhance design creativity and productivity
- Streamline/automate front end processes
- Foster team and supply chain collaboration
- Boost calendar/process visibility and control

" For the creative type like me and my designers, the look of a program is important. If it looks good, it makes you want to open the program. PLM REVO's search navigation and filters are great, you can find things quickly and any kind of speed you can add it to your job makes everything easier. Especially with a business like ours, time is of the essence."

– JULIE KELLER, DESIGNER, KRAZY KAT

" Exenta ERP is the backbone of all our systems, and I am particularly pleased that we have an integrated, web-based PLM to support our designers who are working remotely as healing hands aids our nation's healthcare workers."

– SID LAKHANI, CEO, HEALING HANDS

" As a footwear & apparel sourcing business that's been run on excel and email for far too long, the decision to invest in Exenta PLMRevo was a no-brainer."

– JACK PERKINS, PROJECT MANAGER, NORTHSTAR SOURCING
